Professional Experience

Frontend Web Developer
Illusion Services, Calabar - February 2023 to September 2023

- Collaborated with stakeholders during development processes to confirm creative proposals and design best practices.
- Transformed native applications into mobile-friendly products.
- Teamed on user-centric design strategy in translation of UX and business requirements into coded solutions.
- Performed user experience quality assurance testing to identify and remedy shortcomings.
- Produced websites compatible with multiple browsers.

Frontend Web Developer
Zuri Technologies, Lagos - March, 2022 to August, 2022

- Coded using HTML, CSS, and JavaScript to develop features for both mobile and desktop platforms.
- Collaborated with in-house web designers to create sleek and innovative UI design.
- Employed coding practices based on commonly accepted standards to establish site layout and user interface.

Education

Bachelor of Engineering in Petroleum Engineering,

Federal University of Technology, Owerri

September, 2021.

Projects

Shopping Cart App

- Built a shopping cart app using Reactjs/Redux, and TailwindCSS
- The app lets users shop for items, and add them to cart.

Expense Tracker App

- Built an Expense Tracker app using Reactjs and Material UI for styling.
- The app helps its user keep track of their income/expense incurred during any period.

Movie App

- Built a movie app with the JavaScript library; React.
- The app gives a user the ability to search for their favorite movies.
- The app utilizes the IMDb API to Fetch movie data and information.

Weather App

- Built a weather app using ReactJS, TailwindCSS and Rapid API.
- This app gives the user the precise weather conditions at any point in time.

Guessing Game

- Built an interactive game app with Vanilla JS
- It's an easy and fun game to play, with a well laid out instruction
